1. At present, there are [] students enrolled in the Phase I Class. The Phase II Class consists of [] students. Out of a total of [] students now in class, one has been to [] Of these [] military. 25X1

2. Since 13 March, [] graduates have had interviews in [] or will go during the next week. [] have been cleared, but are still attached to UTG/A while awaiting induction into the military service. There are now [] graduates without any word on their status. 25X1

3. The Industrial Register Branch of the Office of Collection and Dissemination has enrolled [] students in the UTG/A program since 1 October 1951. Many of these students as well as students from other offices have received the impression that their individual projects assigned by their offices were "make-work" projects. Consequently, these projects have caused minor morale and discipline problems in the UTG/A program. This matter has been discussed thoroughly with [] of the OCD administrative office, [] training liaison officers of OCD, and [] chief of the Industrial Register. As a result of these conferences, [] suggested that "plant summaries" replace the customary projects. The "plant summary" work involves restricted and unclassified materials from the IR files, as well as materials from the Library of Congress, the Pentagon, etc. [] of the Office of Inspection and Security, were consulted about the feasibility of such an assignment. They have granted approval for the "plant summary" projects on an ad hoc basis. This plan has been in operation for the past week.
